

Southern Adirondack Tobacco Free Coalition Community Survey - Spring 2009

Public Support to Eliminate Tobacco Use Outdoors

Question: Do you favor or oppose an expansion of the current clean indoor air law to include any of the following environments? Public parks, public beaches, public areas around building entry ways, municipal pools and playgrounds.

Support is high, consistent and ranked for an expansion of the current clean indoor air law among respondents across the three counties to the following areas: Playgrounds, Municipal pools, Entryways, Public beaches and Public parks. Support is highest for the expansion of the law for playgrounds followed in descending order by pools, entryways, beaches and parks. All respondents regardless of demographics and smoking behavior support an expansion of the act to apply to playgrounds.
