Currently six different bidders have submitted proposals to redevelop the Aqueduct site and to include VLT's in their project. I'm going to read you the names of some of the entities involved in the proposals. I understand that you may not be familiar with all the companies involved in the redevelopment process. For each tell me whether you have a favorable or unfavorable opinion of that entity, or if you simply do not know enough about them to have an opinion.

In addition to the companies involved in the redevelopment, now I'm going to read you the names of several public figures that are involved in either the proposals to redevelop Aqueduct or in the decision as to who will be the developer. For each tell me whether you have a favorable or unfavorable opinion of that person or if you simply don't know enough about that person to have an opinion.

David Paterson

The redevelopment of Aqueduct has been described by many people in different ways. I'm going to read you some statements that have been made by people involved in discussing the project. For each, tell me if you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree.

What we need at Aqueduct is a first class development equal or better to anything in Las Vegas.

It probably would be best if the project moved in phases. First put in the VLT's, then after seeing how successful it is, decide on amenities like hotels, or a convention center.

The best thing for Queens is to build a spectacular facility that will attract people from all over. That would put us on the map.

The proposals for the redevelopment have all been submitted. We now expect a decision to be made on a developer by some time in September. How likely do you think each of the following are, select from very likely, somewhat likely, not very likely, not at all likely.

The developer will in fact be named by September 15th
