The New York Times Upshot / Siena College Kansas 3 Poll: Democrat Davids 51% Republican Incumbent Yoder 43%

Voters Prefer Democrats Control House 51-43%; Give President Trump Large Negative 41-56% Job Approval Rating

Favorability Ratings: Yoder, 40-49 Percent; Davids, 44-32 Percent

Loudonville, NY. Democratic lawyer Sharice Davids holds an 8-point lead over incumbent Republican Congressman Kevin Yoder, 51-43 percent, according to a new New York Times Upshot/Siena College poll of likely Kansas 3rd Congressional District voters. Yoder has a negative 40-49 percent favorability rating, compared to a 44-32 percent favorability rating for Davids.

If election was today, who would you vote for?			
	Kevin Yoder	Sharice Davids	DK/ Other
KS 03			
Likely Voters	43%	51%	6%
<i>Democrats</i>	5%	92%	3%
<i>Republicans</i>	88%	11%	2%
<i>Independents</i>	33%	56%	11%
<i>Men</i>	52%	43%	6%
<i>Women</i>	36%	58%	6%
<i>Less than College</i>	47%	45%	8%
<i>College/Higher</i>	41%	54%	5%
The New York Times Upshot/Siena College Poll – 10/1/18			

Likely voters in this suburban Kansas City district prefer Democrats rather than Republicans control the House of Representatives next year, 51-43 percent. Voters give President Trump a large 15-point negative job approval rating with 41 percent approving the job he is doing and 56 percent disapproving and by 49-42 percent they oppose Brett Kavanaugh’s nomination to the United States Supreme Court.

This New York Times Upshot/Siena College Poll is part of an ongoing project polling pivotal Congressional races across the country. The data is published live on <https://www.nytimes.com/section/upshot>. This press release highlights the key findings and provides access in the [cross-tabulations](#) to the entire survey as well as how demographic groups answered each question.

###

This New York Times Upshot/Siena College KS 03 survey was conducted September 20-23, 2018 by telephone calls in English and to 494 KS 03 voters. This poll has a margin of error of ± 4.7 percentage points. Calls were made to a stratified weighted sample of voters from the L-2 Voter list via both land and cell phones. A likely-to-vote probability was computed for each respondent based on their stated likelihood to vote as well as by virtue of the imputation of a turnout probability score based on past voting behavior. This combined probability to vote score was applied as a weight along with a weight that considered party, age, race/ethnicity, education, region within the district and gender. Polling support for this project provided by Institute for Policy and Opinion Research at Roanoke College, Reconnaissance Market Research, M. Davis & Company, The Public Opinion Research Lab at the University of North Florida and The Survey Research Center at the University of Waterloo. The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices. For more information, please call Steven Greenberg at 518-469-9858 or Don Levy at 518-783-2901. Survey cross-tabulations and frequencies can be found at: www.Siena.edu/SCRI/SNY.
