**This Siena College Poll was conducted January 15-19, 2023 among 821 New York State registered voters with 494 voters contacted through a dual frame (landline and cell phone) mode and 327 responses drawn from a proprietary online panel (Lucid) of New Yorkers. Telephone calls were conducted in English and respondent sampling was initiated by asking for the youngest person in the household. Telephone sampling was conducted via a stratified dual frame probability sample of landline (ASDE) and cell phone (Dynata) telephone numbers within New York State weighted to reflect known population patterns. Data from both collection modes (phone and web) was merged and statistically adjusted by age, party by region, race/ethnicity, education, gender, 2020 vote choice by region to ensure representativeness. It has an overall margin of error of +/- 4.3 percentage points including the design effects resulting from weighting.
