This Siena College Poll was conducted June 4 - 12, 2023, among 802 New York State Residents. Of the 802 respondents, 382 were contacted through a dual frame (landline and cell phone) mode and 420 respondents were drawn from a proprietary online panel (Lucid). Telephone calls were conducted in English and respondent sampling was initiated by asking for the youngest person in the household. Telephone sampling was conducted via a stratified dual frame probability sample of landline and cell phone telephone numbers weighted to reflect known population patterns. The landline telephone sample was obtained from ASDE and the cell phone sample was obtained from Dynata. Data from collection modes was statistically adjusted by region, gender, age, race/ethnicity, and party registration to ensure representativeness. It has an overall margin of error of +/- 3.7 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Dr. Don Levy at 518-783-2901. For survey crosstabs: www.Siena.edu/SCRI/CCI.
