

Is it Getting Hot in Here?

Within the last 5 years, those in these areas of New York State been personally affected by extremely hot weather or heat waves. The average was 57%.

@sienaresearch

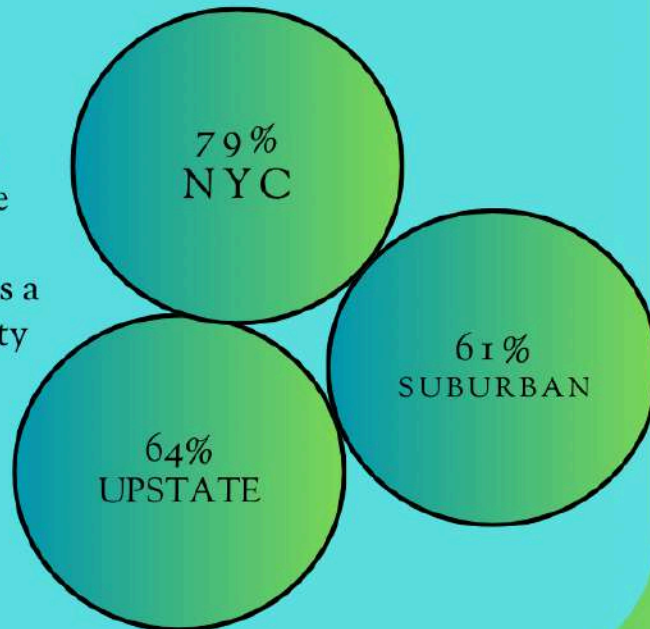

Summer's scorching intensity is no longer just a season. It's a wake-up call. Let's take action to beat the heat and protect our planet. 🌞🌍 #ClimateCrisis #HotterThanEver

How are We Living?

For each of the following statements, please indicate whether you agree: The impact of climate change has a negative effect on my quality of life.

@sienaresearch

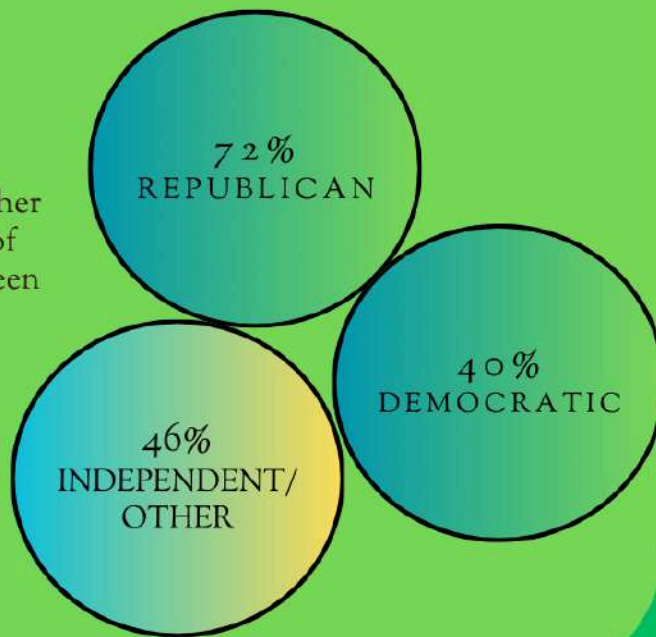

In the city that never sleeps and the rural towns that thrive on open spaces, climate change affects every aspect of our lives. 🏙️🌳 #NYC #UpstateNY

Are Green Economy Projections too Optimistic?

For each of the following statements, please indicate whether you agree: The economic benefits of transitioning to a cleaner and green economy are overstated.

@sienaresearch

In a divided landscape of opinions, one thing is clear: the conversation around the economic impacts of transitioning to a green economy is far from settled. 🌍🌱 #GreenEconomy #EconomicTransition

Air pollution isn't just an inconvenience; it's a health crisis. 🤔🌱 #CleanAir #HealthFirst
