This study was conducted April 14 - 17, 2023, among 854 New York State residents as part of a Community-Based Research course at Siena College with support from the Siena College Research Institute. Of the 854 respondents, 854 respondents were drawn from a proprietary online panel (Lucid). Data from collection modes was statistically adjusted by age, party by region, race/ethnicity, region, and gender to ensure representativeness. It has an overall margin of error of +/- 3.8 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Don Levy at (518) 783-2901. For survey crosstabs: www.Siena.edu/SCRI/.
