This special environmental survey was conducted March 25 - 31, 2024, among 915 New York State residents as part of a Community-Based Research course at Siena College with support from the Siena College Research Institute. Of the 915 respondents, 0 were contacted through a dual frame (landline and cell phone) mode and 915 respondents were drawn from a proprietary online panel (Lucid). Data from collection modes was statistically adjusted by age, party registration, region, race/ethnicity, and gender to ensure representativeness. It has an overall margin of error of +/- 3.6 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Don Levy at (518) 783-2901. For survey crosstabs: https://scri.siena.edu/comd210/.
