

Emergency Preparedness in New York State

Anerican

AGENDA

- 1. INTRO TO CLASS
- 2. COURSE METHODOLOGY
- 3. SURVEY & INTERVIEWS
- 4. DATA ANALYSIS
- 5. CONCLUSION
- 6. RECOMMENDATIONS
- 7. QUESTIONS

Our Class and Its Researchers

Who Are the Researchers? We are a group of Siena College students (freshman-seniors) majoring in fields ranging from communications to actuarial science and a committed staff member of the college further enhancing her great research skills, that is led by "two experienced community leaders dedicated to the community's cooperative development Jason Dylan P Dvlan Pantalone

C

Mission of the Class

To research and assess emergency and disaster preparedness across New York State in partnership with the region's American Red Cross and the Siena College Research Institute

Mission of the Red Cross

The American Red Cross, a humanitarian organization led by volunteers and guided by its Congressional Charter and the Fundamental Principles of the International Red Cross Movement, will provide relief to victims of disaster and help people prevent, prepare for and respond to emergencies

Overview of Course

- Learn about community based research
- Build relationship with community partner & assess needs
- Develop and carry out a community research project
- Results of research project are presented to the Red Cross

Class Structure and Methodology used for Research

- 1. Introduction to community based research (CBR)
- 2. Presentation of history and current work of American Red Cross
- 3. Deeper look at CBR and case studies
- 4. Interviews conducted (34 total)
- 5. Survey conducted (603 NYS residents)
- 6. Data analysis from survey
- 7. Creation of presentation and press release
- 8. Presentation of findings to Red Cross

Lessons & Insight from the American Red Cross

1. There is more work to be done to further educate NYS residents regarding emergency preparedness and

response protocol

- 2. Time is crucial during a disaster and every second counts
- 3. Proper education and preparation can save lives

American Red Cross

34 Total Interviews

American Red Cross

- Law enforcement and first responders
- Public officials
- Business owners
- Lay community members
- Landlords and contractors
- Education personnel
- Red Cross volunteers
- Red Cross managers
- A fmr. Red Cross president
- Among others!

Survey

- Screening Questions
- Survey Breakdown
 - a. Disaster Concern Questions
 - b. Home Preparedness
 - c. Info/Support
- Demographics

Results and Data Analysis

Chapter I: Disaster Concerns

Chapter II: Fire Safety

Chapter III: Emergency Information

New York Residents Are Concerned About Disasters

Type of Disaster	Concern Score	Most Likely	SINGLE Most Concerned
Pandemic Illness (not including the coronavirus)	69	16%	24%
Cyber Attack	64	11%	7%
Terrorist Attack or Other Mass Violence Attack	60	14%	26%
Home or Residence Fire	54	9%	13%
Major Infrastructure Failure	54	6%	6%
Natural Disaster (Earthquake, tornado, severe blizzard, major flooding)	46	39%	21%

Concern Score out of 100= How concerned

In the event of an emergency, **73%** of NYS residents say they are informed about how to prepare

64% At least somewhat prepared for a natural disaster

60% At least somewhat aware of social services available after a disaster

FIRE SAFETY

Thinking specifically about fire safety:

- 13% say they are <u>most</u> concerned about a home or residence fire
- 9% say this is the most likely to happen
- 91% say they have at least 1 smoke detector

***The Red Cross recommends you should have at least one smoke detector in and outside every sleeping area, on each floor of the house & a house fire escape plan in place

Of the **61%** who have a plan, **half** have practiced it in the past 12 months

65% of all residents say they have a place to stay if they lost their residence in a fire

61% of residents have fire emergency escape plans in place; 75% households with children have a plan and practiced the plan more frequently

Number of Times Fire Escape Plan Practiced in Past 12 Months						
Children in Household	>3 times	3 times	2 times	1 time	Not at All	
Yes	18%	16%	21%	21%	24%	
Νο	6%	3%	12%	17%	61%	

Do you have a place to live temporarily if you lose your house or residence in a fire?

Impact of Income Level

Temporary housing				
Income	Yes	Νο		
< 25K	58%	42%		
25K - 49K	57%	43%		
50K - 99K	65%	35%		
> 100K	78%	22%		

Familiarity with basic fire safety measures (Such as how often to test or change a smoke detector)

Very Familiar Somewhat Familiar Not Very Familiar
Not at All Familiar

How often do you test the smoke detectors in your household?

Perception of how long it takes to escape in the event of a fire

***Individuals have two minutes on average to escape a burning building

NEWS **ERGENCY INFORMATION**

Then we asked, how else do you prepare and where do you get your information for all disasters?

How Often Have You Engaged in Each Activity in the Past 12 Months?

	Somewhat/ Very Often
Visited a Website to review Information about Emergency Preparedness	33%
Donated to a Charity or Non-Profit Organization Dedicated to Emergency Preparedness and/or Disaster Relief	31%
Talked with Members of their Household about What to Do in the Case of a Natural Disaster or Other Emergency*	31%
Attended a Course on Emergency Preparedness	30%
Attending Meeting to Learn about Preparing for a Disaster	25%
Written to or Called a Political Leader to Advocate for Emergency Preparedness	21%

"Talked with Members of their Household about What to Do in the Case of a Natural Disaster or Other Emergency" was not applicable to 15% of those surveyed due to them living alone

Top 5 Sources of Information Regarding Emergency Preparedness

28% of Respondents Said

BREAKING NEWS

ín

They Get Their Information in-part from the Red Cross

- 1. TV or Radio News Segment **50%**
- 2. Friends and Family **44%**
- 3. Internet Sites (such as Google) **37%**

EWS C

4. Newspapers - 32%

5000

5. Social Networking Sites & Local Fire Department - **31%**

Where do you get emergency notifications from?

- 1. TV/Radio **64%**
- 2. Friends & Family & Cell Phone Emergency Alert System (FEMA) **48%**
- 3. Text Notifications **47**%
- 4. Online News 45%
- 5. Social Networking Sites 38%
- 6. Their Employer 17%
- 7. Robocall **13**%
- 8. Other **1%**

CONCLUSION

We are concerned about many types of disasters, both natural and man made

but we are not sufficiently prepared...

when we come out of the Coronavirus (COVID-19) Pandemic, let's get prepared for these other potential disasters

Recommendations

- Continue to Focus on Children's Educational Programs
- 2. Increase Social Media Presence
