This Siena College Poll was conducted July 28–August 1, 2024, among 1,199 likely voters in New York. Telephone sampling was conducted via a weighted stratified dual frame sample of landline and cell phone drawn from the L-2 database of registered voters. Data was statistically adjusted by region, race/ethnicity, political party, education, statewide vote pattern in the 2020 election, a combined measure of stated and derived vote likelihood and gender to ensure representativeness. It has an overall margin of error of +/- 4.0 percentage points including the design effects resulting from weighting. The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, nonpartisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.
