\$100K+	46%

This Siena College Poll was conducted September 11 - 16, 2024, among 1,003 likely voters in New York. Telephone sampling was conducted via a weighted stratified dual frame sample of landline and cell phone drawn from the L-2 database of registered voters (467 completed via telephone, 536 completed via text to web). Data was statistically adjusted by region, race/ethnicity, political party, education, statewide vote pattern in the 2020 election, gender, and voter likelihood, a computed score that combines voter history, stated voter likelihood and modeled turnout by respondent. It has an overall margin of error of +/- 4.3 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.
