This Siena College Poll was conducted October 13 - 17, 2024, among 872 likely voters in New York. Telephone sampling was conducted via a weighted stratified dual frame sample of landline and cell phone drawn from the L-2 database of registered voters (872 completed via telephone). Data was statistically adjusted by region, race/ethnicity, political party, education, statewide vote pattern in the 2020 election, gender, and voter likelihood, a computed score that combines voter history, stated voter likelihood and modeled turnout by respondent. It has an overall margin of error of +/- 4.2 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Steve Greenberg at (518) 469-9858. For survey crosstabs: [www.Siena.edu/SCRI/SNY](http://www.Siena.edu/SCRI/SNY).
