Q28. Current law in New York requires homebuilders to provide new home purchasers with information on the benefits and estimated costs associated with the installation of a fire sprinkler system in their new home. Knowing that this disclosure is currently required of homebuilders to new home purchasers would you rather:

Q29. The NYS Fire Prevention and Building Code Council, a 17-member body including state officials appointed by the Governor and experts appointed by the governor with the advice of the Senate, will decide whether New York State's building code will require fire sprinklers in all new one and two-family homes. Do you think this council should make this decision, or should this decision require the direct approval of the State Legislature and Governor?

This Siena College Poll was conducted October 13-17, 2024, among 872 likely voters in New York. Telephone calls were conducted in English and respondent sampling was initiated by asking for the youngest person in the household. Telephone sampling was conducted via a stratified dual frame probability sample of landline and cell phone telephone numbers weighted to reflect known population patterns. The sample of landline and cell phone was drawn from the L-2 database of registered voters (872 completed via telephone). Data from collection modes was weighted to balance sample demographics to match estimates for New York State's population using data from the Census Bureau's 2023 U.S. American Community Survey (ACS), on age, region, race/ethnicity, education, and gender to ensure representativeness. The sample was also weighted to match current patterns of party registration using data from the New York State Board of Elections. It has an overall margin of error of +/- 4.2 percentage points including the design effects resulting from weighting. Sampling error is only one of many potential sources of error and there may be other unmeasured error in this or any other public opinion poll.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Steve Greenberg at (518) 469-9858. For survey crosstabs: www.Siena.edu/SCRI/SNY.
